RESPONSE TO SPECIES ELECTION REQUIREMENT

**Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450**

Sir:

This is responsive to the Office Action mailed July 27, 2005, in which a Species Election under 35 U.S.C. §121 is advanced.

The Examiner required an election between Species I (“sheet of adhesive”) and Species II (“annulus of adhesive”). In response, Applicant hereby elects Species I (“sheet of adhesive”) with traverse. Commensurate with this Election, Applicant asserts that claims 31, 35-48, 52, and 53 are generic, and that claims 31, 32, 35-48, and 52-54 read upon the elected species.

Applicant traverses the election of species requirement on the grounds that no serious burden on the Examiner exists. If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims directed to distinct or independent inventions, as stated in MPEP § 803. Applicant submits that the subject matter of Species I and Species II are sufficiently related that a thorough search for the subject matter of the elected species would encompass a search for the subject matter of the non-elected species. To avoid duplicative examination and unnecessary delay and expense to the Applicant, Applicant respectfully requests examination on the merits of all the species, not just Species I.

Response to Species Election Requirement
